

# TRANSITION SOCIAL STORY: MOVING TO A NEW HOME

1

Soon, I will move from my current home to a new home. This is something many people do in their lives.

I Am Moving to  
a New Home

2

On moving day, my family will help me pack my things into boxes. My favourite items, clothes, and toys will come with me.

3

We will travel together to the new home. I might go by car or van. The journey may feel different, but it will be safe.

4

When we arrive, I will see my new home. It may look and feel different from my old home.

5

Inside the new home, I will have a bedroom and space for my things. I can make it feel comfortable by arranging it how I like.

6

There may be new people to meet. They can become my neighbours, friends, or carers.

7

There may be moments when I feel confused or uncomfortable. But that's normal and it will pass very soon.

8

My new home will become a safe place where I can live, rest, and do the things I enjoy. Moving is a big change, but I will be supported every step of the way.
